BULBS WATTAGE - WATTAGGIO LAMPADINE

The wattage of the light bulbs is suggested for an optimal balance between luminous output and product aesthetics
and should not be considered as the maximum power that can be installed on the product.
Where explicitly recommended, please follow the indicated bulb size and diameter.

La potenza delle lampadine è suggerita per ottenere un equilibrio ottimale tra resa luminosa ed estetica del prodotto e non deve essere considerata
come la potenza massima che si può raggiungere con le lampadine e non deve essere considerata come la potenza massima installabile sul prodotto.
Dove esplicitamente consigliato, attenersi alle dimensioni e al diametro della lampadina indicati.

DIMMING SYSTEM - SISTEMI DI DIMMERAZIONE

Lamps marked as dimmable are intended to be so only if the electrical system has been prepared for such light variation.
Ensure before ordering that the product’s standard or accessory dimming system is comatible with this setting.
This is different for floor lamps and battery-powered lamps marked as dimmable, as their dimmer is integrated.

Le lampade contrassegnate come dimmerabili sono da intendersi tali solo se l’impianto elettrico è stato predisposto per tale variazione di luce.
Assicurasi prima dell’ordine che il sistema di dimmerazione standard o accessorio del prodotto sia comatibile con tale predisposizione.
Questo è diverso per le lampade da terra e le lampade a batteria contrassegnate come dimmerabili, in quanto il loro dimmer è integrato.
