# Sustainability efforts

We acknowledge that selling furniture and lighting can never be 100% sustainable, but we want to make an extra effort for the environment. We are dedicated to being sensible frontrunners on environmental responsibility and if we provide timeless, lasting, and functional quality designs, we know nature will prevail, as will UIMAGE. We are constantly improving our designs and trying to do even better for the environment, with new sustainable materials, greater functionality and by making our flat-packed products even smaller, to care for you and the planet.

## Reforestation

UMAGE collaborates with the NGO One Tree Planted, so every time a design made from wood is sold, we plant a tree. Trees help clean the air we breathe, filter the water we drink and provide habitat to over 80% of the world's terrestrial biodiversity. Forests provide jobs to over 1.6 billion people, absorb harmful carbon from the atmosphere, and are key ingredients in 25% of all medicines. In 2024 UIMAGE planted 21.218 trees.

## UMAGE is an FSC™-certified company

UMAGE is proud to be an official FSC-certified company. The certification ensures responsibly sourced wood, protecting biodiversity and supporting workers and local communities. While some products are already FSC-certified, we will continue expanding FSC-certified wood across our collections – aligning with our design philosophy to craft each piece with respect for nature and craftsmanship. Contact us for more information on our FSC-certified products.

## 100% recycled textiles

The Horizons textiles from UIMAGE are recycled from plastic waste and reused for a new purpose in the design of comfortable chairs and cute cabinets. The textiles are certified with Global Recycled Standard and STANDARD 100 by OEKO-TEX®.

## Hope leather

The tannage of the Hope leather is chrome-free, ensuring a process with minimal harm to both you and the planet. By eliminating harmful chemicals, we not only reduce environmental impact but also offer a safer, more sustainable leather option. Chrome-free leather production means less pollution, cleaner waste streams, and improved biodegradability. The Hope leather is certified with Global Recycled Standard and LEATHER STANDARD by OEKO-TEX®.

## Multifunctional and flexible

Why have a table lamp or a side table and not include a USB or wireless charger as well? Why not make room for storage where the space is

vacant anyway? One of the key aspects of the furniture and lighting designs at UIMAGE is multiple functions and flexibility. Designing with versatility in mind supports a sustainable approach, reducing the need for multiple products to create a cohesive space.

## Compact packaging

We have replaced all foam and plastic in our packaging with eco-friendly materials to minimise plastic waste when purchasing an UIMAGE design. So, our designs are not only flat-packed to optimise the global logistics and the environmental footprint, but we also make sure that you don't need to throw away tons of packaging material and that the packaging you're left with can be recycled and used for something new.

## Replaceable and recyclable

Creating long-lasting designs is an essential part of the UIMAGE brand. To extend the life of the design, most parts of the furniture and lamps at UIMAGE are replaceable. If a part breaks or gets worn out, you don't have to go out and replace a complete piece of furniture or lamp – you can simply replace the single parts. When your UIMAGE design has lived a full life, it can be separated into key elements for recycling.

## Interchangeable elements

As time changes, the designs can change accordingly. Two years have passed, and suddenly you want another colour on your lounge chair, then simply interchange upholstery in a few minutes. Same thing with our dining chairs, cabinets, and other responsible designs. This means you can add new life to the design and your interior without buying an entirely new furniture piece, saving the world's resources.

## Nordic Swan Ecolabel

The Dunes collection from Sørensen Leather is a part of our permanent leather collection for the UIMAGE lounge chairs and ottomans. The Dunes collection is labelled with the Nordic Swan Ecolabel: A highly respected certification verifying that it meets their rigorous requirements regarding the environment, energy use and resources.

## Responsible Down Standard

At UIMAGE, we ensure that all goose feathers used for our Eos feather lamp collection are 100% sustainably sourced from farmland to end-consumer. All feathers are licensed with an RDS certification, ensuring the well-being of animals in our production.

# UMAGE is now an FSC-certified company

Highlighting our dedication to sustainability, UIMAGE is now an official FSC-certified company. This certification reflects an ongoing commitment to the environment, offering thoughtfully designed products that combine aesthetics, functionality, and environmental care.

*“At the heart of our vision is a commitment to sustainability, and this FSC certification marks an important milestone in that journey,”* says Jacob Nannestad, CEO of UIMAGE. *“We’re dedicated to integrating sustainable practices across every aspect of our production, and we hope you’ll join us on our journey towards a more sustainable future.”*

The certification ensures responsibly sourced wood, protecting biodiversity and supporting the rights of workers and local communities. Some products are already FSC-certified - and in line with our design philosophy, we will continually expand the use of FSC-certified wood across our furniture collection, ensuring each piece is crafted with respect for both nature and craftsmanship.

# Clava collection

Designed by  
Søren Ravn Christensen

The Clava collection consists of two pendant lampshades; Clava and Clava Dine.

The Clava lampshade and the Clava Dine lampshade are made from aluminium with small symmetric holes that supply a mesmerising look to the surroundings. The perforated holes and graceful, curved silhouettes add an exclusive and elegant touch to the design while being a nostalgic retro reference to the 70s.

Where Clava is a smaller lamp suitable to hang in clusters in corners of the home or above the kitchen counter, Clava Dine is bigger and perfect for hanging above the dining or coffee table.

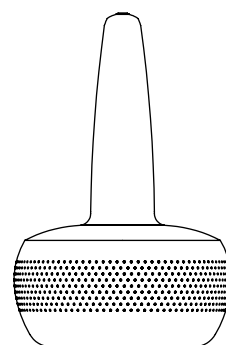

Both designs are available in a variety of calm and vivid, bold colours.

# Curious collection

Designed by  
Luigi Vittorio Cittadini

Curious is a stackable chair with a light, minimalistic and elegant expression. Made from oak veneer, Curious is available with brass and black legs with the option of a seat cushion to enhance comfort. The seat cushion is available in 17 bespoke colours of the new 100% recycled Horizons fabric and in brown or white of the Teddy Bear fabric.

The French-Italian designer behind Curious, Luigi Vittorio Cittadini, has a background from Politecnico di Milano and several years of work for design studios in Milan. This translates to all aspects of his designs and results in designs with an ironic edge, a poetic contrast and a touch of Italian design tradition.

The curious chair is designed to suit countless settings and purposes and will look great in the home, hospitality venues, and offices. Have them as a part of a dining setup in the kitchen, use them in restaurants or small coffee shops or let them elevate your dining room setting.

# Kvadrat

## Canvas 2 | Fabric from Kvadrat

Canvas is a vibrant woollen upholstery fabric created by Giulio Ridolfo. Particularly well-suited to large surfaces thanks to its pronounced structure, it features a soft weave and an expanded palette inspired by the landscapes of Skagen, Denmark. The melange yarn used to craft Canvas combines three colours, with six hues in every colourway. Consequently, the fabric offers exceptional colour richness and an intriguing expression. From a distance, it has the calm surface of a unicoloured fabric. But, get closer, and shimmering colour nuances, delicate contrasts and an elegant structure emerge.

## Hallingdal 65 | Fabric from Kvadrat

Kvadrat's first textile 'Hallingdal' has become the archetype of woollen textiles. The very durable upholstery fabric was originally designed in 1965 by Nanna Ditzel, and is now available in a version with an updated colour scale: Hallingdal 65. Hallingdal 65 is made of wool and viscose, which complement each other well: the wool provides excellent durability and flexibility, whilst the viscose adds brilliance and depth to the colour. Both materials are dyed before they are spun, which highlights the rich texture of the fabric.

## Maple | Fabric from Kvadrat

Aero-finished and therefore extremely soft to the touch, Pine and Maple are made with three tone-in-tone coloured yarns. The viscose used in their construction gives them a distinctive shimmer, which deepens according to the light and the perspective of the viewer. Pine is flat-woven and has a subtle striated look. Maple is woven with a chenille yarn and has a soft pile that reveals the structure of the weave. Foreign fibres and small clusters of colour may appear on the fabric's surface adding to their slightly irregular, casual expression.

Name: Maple  
 Designer: Åsa Pärson

## Moss | Fabric from Kvadrat

The second design by Vincent van Duysen and Anna Vilhelmine Ebbesen is the distinctive upholstery fabric Moss. The mixture of twisted yarn and chenille gives the fabric surface a textured structure with an appearance of movement, and also creates a soft handle which adds a special dimension to the furniture it covers. The twenty-two colourways are either one- or two-tone combinations inspired by Vincent van Duysen's own home and range from cool cement and soft blue to oily green, curry yellow and the shades of natural wood.

Name: Moss

## Re-wool | Fabric from Kvadrat

Crafted using 45% recycled wool, Re-wool is a rich upholstery fabric with a sustainable profile. The fabric is partly made by reusing scraps from Kvadrat's yarn spinners in the UK. It is designed by Margrethe Odgaard. 'The idea was to create a both honest and environmentally friendly – fabric with a poetic feel by recycling leftover material from Kvadrat's own production', explains Margrethe Odgaard. Reminiscent of colourful stitchings on a darker background, Re-wool features exceptional depth of colour, creating a dynamic play on the fabric's surface when applied to furniture.

## Remix 3 | Fabric from Kvadrat

Remix 3 is an elegant upholstery textile distinguished by exceptional depth of colour, designed by Giulio Ridolfo. It comes in 23 new hues, adding to an already expansive palette which now offers a total of 72 sophisticated colourways. Remix 3 looks unicoloured from a distance but reveals subtle details and colour contrasts when viewed close-up. The textile features a tight, minimalistic weave, and derives its lively colour play from a combination of two different mélange yarns, which each combine up to three hues. The new colours – carefully selected from 2600 samples – are inspired by an extensive study of traditional Indigo dyeing undertaken by Giulio Ridolfo on his travels. Centred around deep combinations of blues and rich natural reds, they also include subtly coloured neutrals.

Steelcut Trio is a hardwearing woollen upholstery textile with the same construction as Steelcut. Originally designed by Frans Dijkmeijer, it comes in updated colourways crafted by Giulio Ridolfo. The three-dimensional surface of Steelcut Trio resembles small pyramids or steel points. Despite the complexity of the textile's innovative weave, it has a simple, precise expression. ## DUNES | Leather from Sørensen Leather

The DUNES collection has received the Nordic Swan Ecolabel. A highly-respected certification verifying that it meets their rigorous requirements regarding the environment, use of energy and resources. A special process involving sanding, buffing and applying a special type of leather oil to the surface gives it that almost velvety touch. At the same time, DUNES boasts a matt look that's raw with a touch of understated elegance. Part of DUNES' extra appeal are the subtle, natural markings which bring a unique personality to each hide. The five colours we feature will also vary from hide to hide and with each individual hide. Watch for a delicious patina that will appear over time as a result of the leather's exposure to daylight, interior lighting and usage. In fact, the more you use DUNES, the more the leather becomes shinier and smoother.
