*« Love is a word of light
written by a hand of light
upon a page of light »*

Kahlil Gibran, Lebanese poet

THE STUDIO

Sensitive and emotional manufactures.

HIND RABII IS DEVOTED TO SHEDDING LIGHT ON HIS LETTERS OF EMOTION.

Since 1997, the designers Hind Rabii and Michel Orban both industrial engineers have a common passion and love for creation, design and innovation.

We expect lights to shed light, to shine, to create shadows. To do this, the poetry of materials, glass, wood, gold and silver leaf, colours used by HIND RABII, positively alter the realities for playing the emotions card without indifference.

Because here is the poetic message of filters, colours, blended reflections, transparency that appears to make every HIND RABII model appeal to the desire of love and of light.

And today we still have, a need for these words cast on a page of white vellum.

Like you, we imagine that the HIND RABII brand is and will be synonymous with all these terms that are only language.

This language which skillfully builds itself in front of the manufactures that are glass blowing, confection of lampshades, wood, aluminum and steel work. All these trades that HIND RABII manages to show only the essentials.

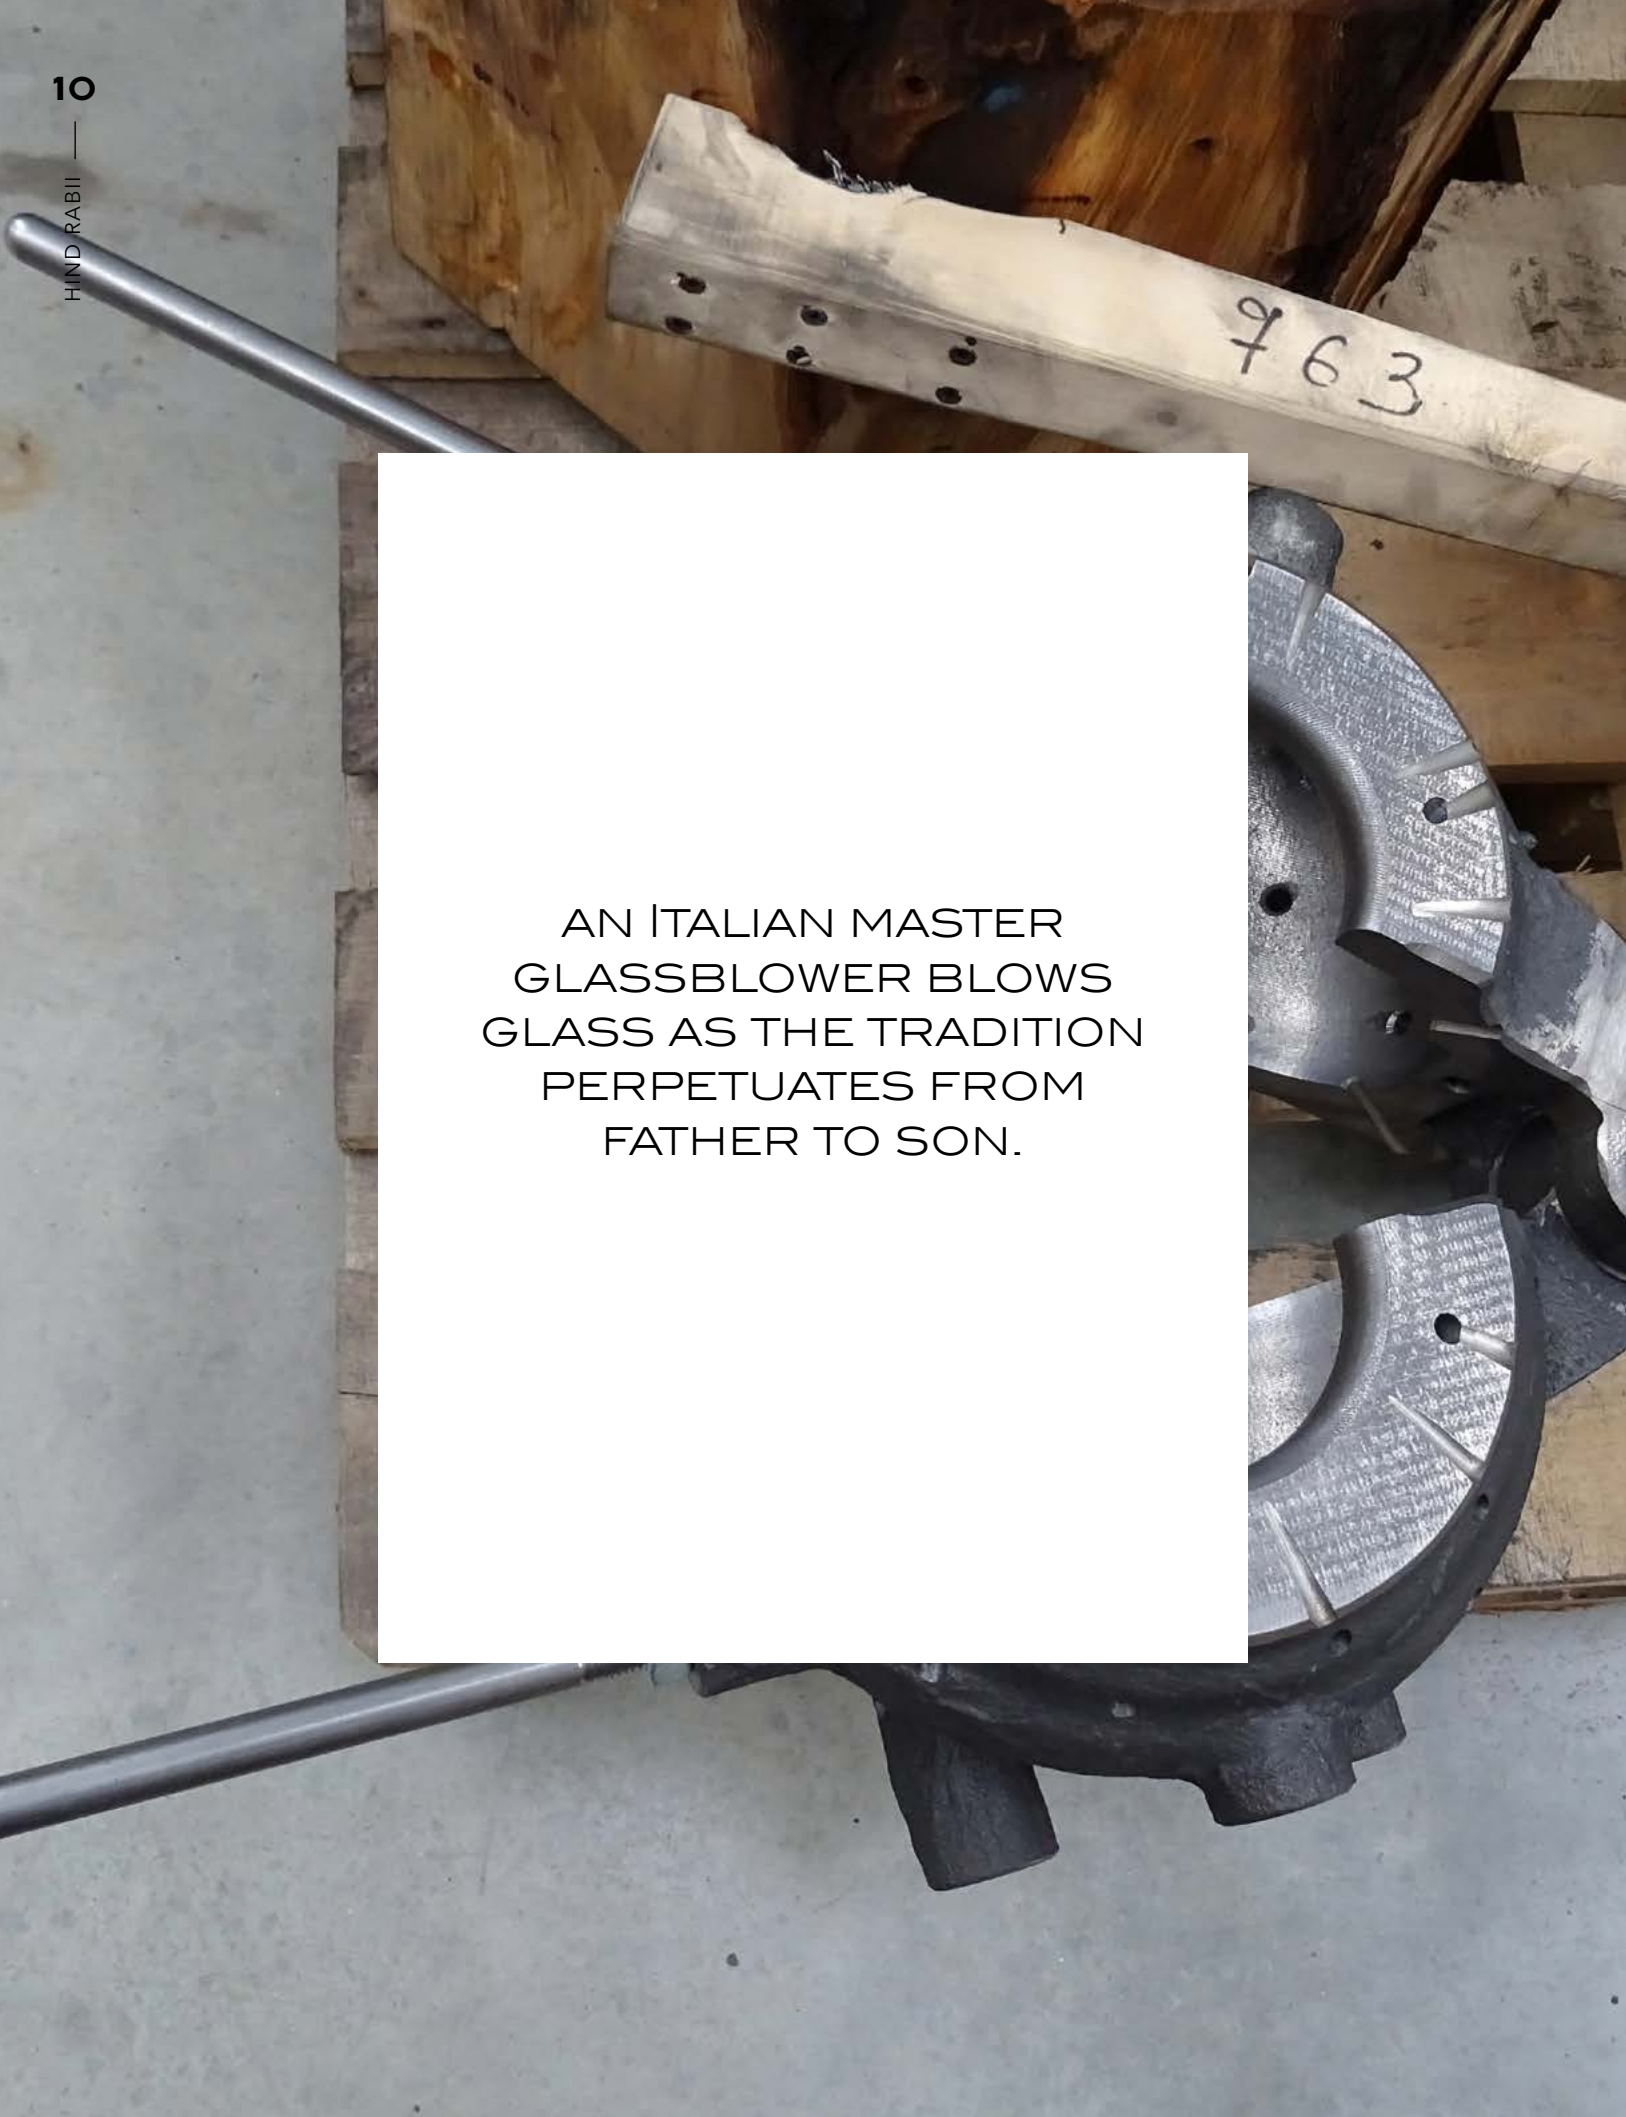

As the Lebanese poet Kahlil Gibran writes, the writing of a hand of light, on a page of light is the vision of light that we offer.

« I THINK THAT THE
QUALITY OF A PRODUCT
CAN BE SUMMED UP IN 3
POINTS: THE CHOICE OF
THE MATERIAL, I ALWAYS
WORKED THE NOBLE
MATERIALS, THE DEXTERITY
OF THE HAND WHICH
TRANSFORMS IT AND THE
EYE OF THE CRAFTSMAN.
THE CRAFTSMAN WILL
ENSURE THAT THE MATERIAL
IS FINISHED IN THE MOST
BEAUTIFUL WAY. »

H.R.

AN ITALIAN MASTER

PERPETUATES FROM
FATHER TO SON.

THE COLLECTIONS

The poetry of materials

ESPRIT YA-YA

Design by Hind Rabii - Maxim Pien / 2017

*YA-YA is determined to be at the centre,
at the heart of places, a long fresco or hooked
on modest surfaces.*

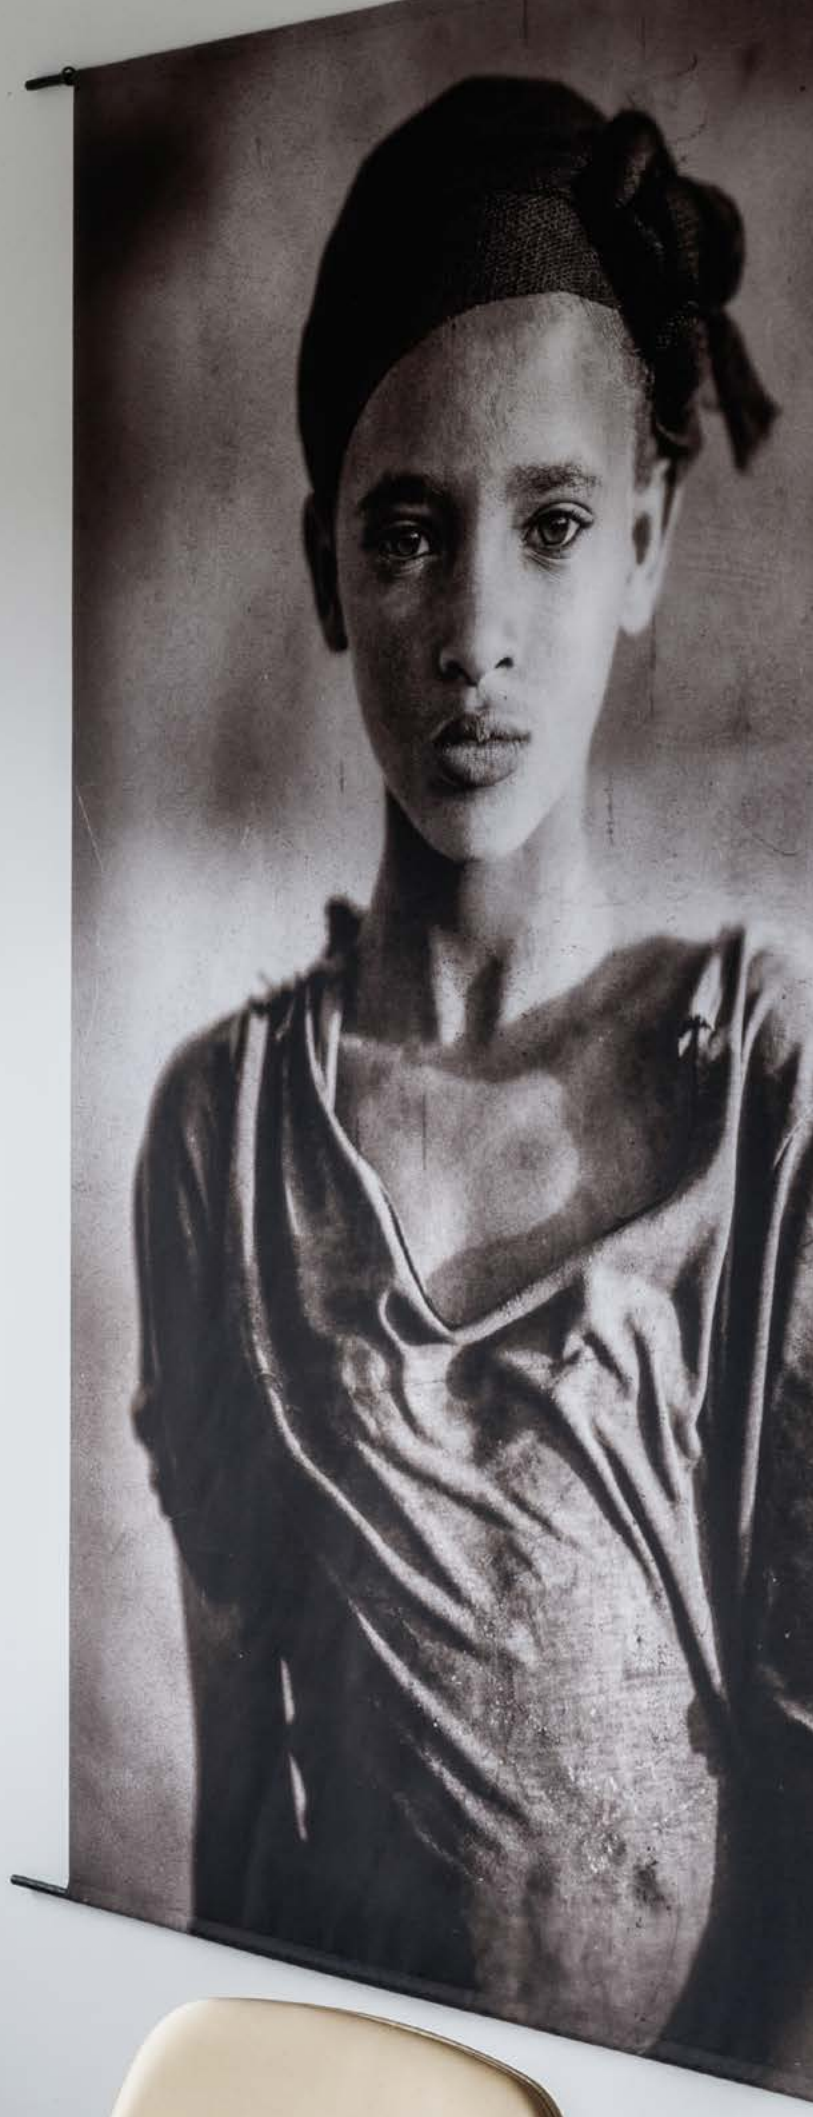

*Its lights are all in suggestive and subtle
mother-of-pearl corollas. And ESPRIT YA-YA
comes loose from its surfaces to take shape
in spaces. The limits of its contours double
up to create magical landscapes. Through
keyholes that are free and formed with sense,
ESPRIT YA-YA sculpts and cuts the light
to offer you what you see!*

*ESPRIT YA-YA feels at ease in all circumstances,
dinner jackets in a 17th century Chartreuse
or a Venetian palace. Esprit jeans in a
plane tree. YA-YA and ESPRIT YA-YA come
together harmoniously to illuminate you with
their free spirits.*

FICO

Design by Chiaramonte Marin Studio / 2018

*Like the fruit of the same name (FIG in Italian), which conceals succulent pulp beneath a thick skin, here the light is protected by a shell of ceramic hanging from a tape as if from the branch of its tree.
It comes in three different shapes.*

MERIDIANA

Design by Chiaramonte Marin Studio / 2018

*Meridiana: this is not a sundial, even
if it mess with light.*

*The process in fact is inverse: here the light
is not the means, but the purpose, a great
disk like the sun and hidden behind a big
clock hand or what it seems like, a gentle,
not blinding light.*

ICE

Design by Hind Rabii / 2015

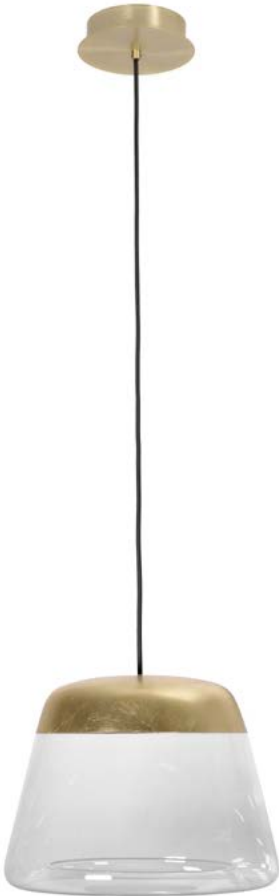

A non-Belgian may not yet be able to imagine an ICE, a sweet (praline in «Belgian») melting on the tongue and which, after the initial asperity, releases a flow of praline chocolate down the throat. The ICE enjoys that kind of roundness that captures the senses, brimming with excitement.

It is bursting with light, ready to explode in every direction or to be encased in its desires by golden or silver corsets. ICE is as asteroid of light coming from nowhere, coming from elsewhere.

BELLE D'I THE GREAT

Design by Hind Rabii - 2017

For this collection, Hind Rabii drew her inspiration from the characteristic shape of Morocco's traditional Beldi glass for tea and infusions.

The simple, clean lines of the pendant are contrasted with the material quality of the glass, obtained by means of blow-moulding techniques.

A timeless lamp: stylish and original, it blends perfectly into any environment, whether classic or contemporary, to create a warm, evocative atmosphere.

DISCA

Design by Alberto Nason / 2017

*Sometimes a luminous apparition seems
to come from elsewhere.*

*In green, transparent-white, milky or
transparent lava glass, DISCA expresses
itself fully in any defined or virtual place.
Its flashes of light carry its shapes off
to infinity, as they spin on themselves
in a Venetian vortex or a Viennese Waltz.*

REFLECTOR(S) TENSION(S)

Design by Hind Rabii / 2014

REFLECTOR(S), collection of pendants and wall lamps, with an ample choice of heights and diameters, so that the lamps can be combined to create light effects of varying intensity.

Cylindrical shade made from velvet or printed fabric in different variants. Metal reflector with aluminium in copper and carbon finish.

TENSION(S), creation of HIND RABII, this pendant for indoor use features a fabric shade and an adjustable cone-shaped aluminium reflector in copper or carbon color for direct and indirect light. With its contemporary linear design, it can be used in various positions and at different heights, so as to obtain an interesting interplay of light and shapes.

ANNA BELLE

Design by Hind Rabii / 2016

ANNA-BELLE is endowed with an extremely rare elegance. The textiles enjoy a whiteness nuanced by the material used and the crown says a little too much of the purity of its intentions.

For BELLE, seducing you is banal. The oak, an eternal and timeless material, turned towards MORANDI, is the only «support» that suits it. It'll give your home a presence that's both luminous and strong.

3 X 3 X 3

Design by Hind Rabii / 2015

Combination of three shapes inspired by nature, mountains and childhood : the bell, the spinning top and the cheese wheel. The three shapes come in three different finishes.

The metal is brushed for the most beautiful effect and the glass is sublimated by the use of leaf.

TENUE DE SOIREE

Design by Hind Rabii / 2015

The visual impacts of TENUE DE SOIREE are impressed in large-scale on the emotion.

They open up the space to romantic, phantasmagorical figures and surround the light with graphic vibrations selected by HIND for their ability to stir up.

Luminous emotions that carve out for themselves spaces reserved for places with extraordinary stories. Concert halls, restaurants in historic palaces, reception rooms of hôtels particuliers, dining rooms or private bedrooms that, thanks to TENUE DE SOIREE become exceptional places for exceptional personalities.

JEWELS - NEWELS

Design by Hind Rabii / 2014-2015

JEWELS, the latest "Jewel" by Hind Rabii is a refined, essential pendant, made of thin sheet metal available in a range of finishes: copper, gold, silver and black. Like a jewel, it shines with its own light thanks to a luminous body with a warm or cool LED light. A unique artistic creation that is a precious addition to any environment.

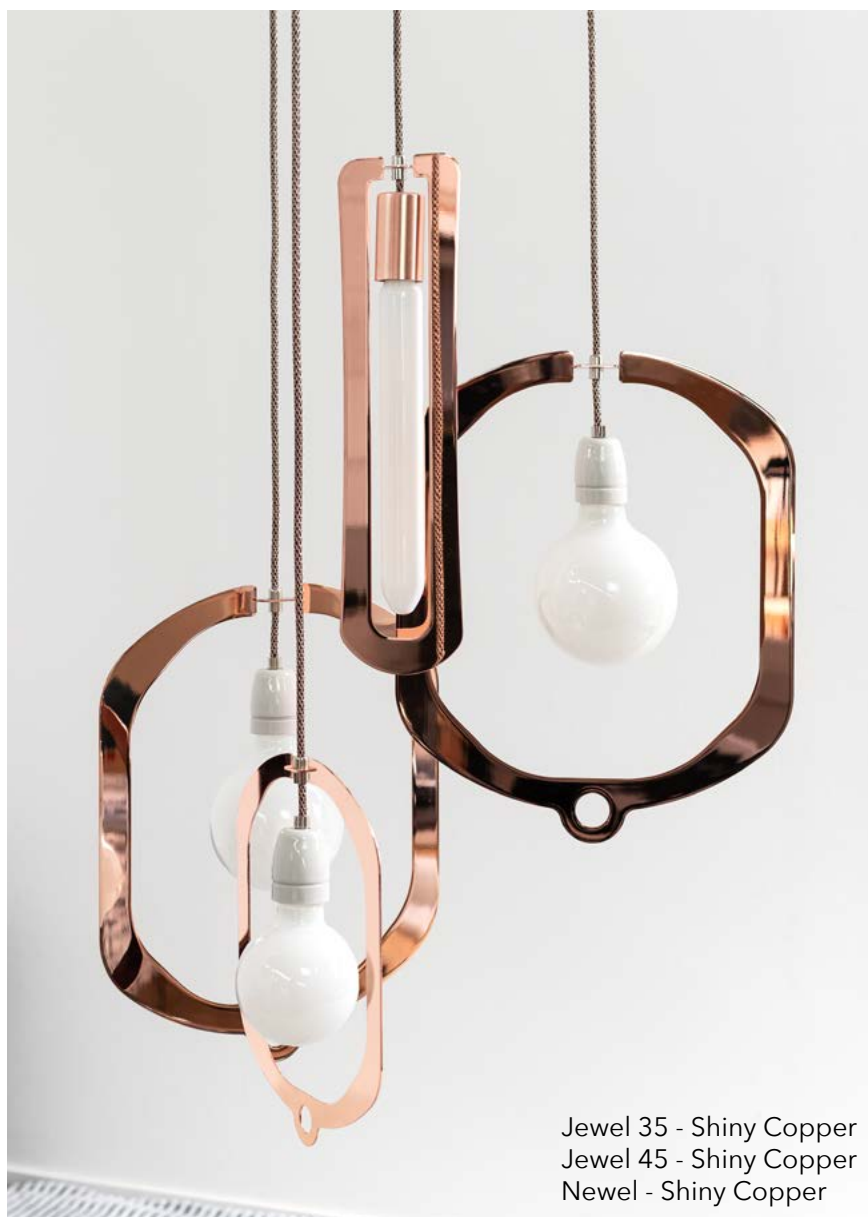

NEWELS, a suspension lamp whose silhouette reminds that of a lance, made in shaped metal and available in copper, gold and black finishes;
being compact and minimal, it plays its role thus maintaining an helpful and discreet presence.

LIGHT GLOW

Design by Hind Rabii / 2018

Simplicity and a focus on materials and the softness of light.

A unique suspension game that, by assembly, will give an imposing but sober pendant lamp. With our suspension solutions, the design is recreated at each assembly.

No rules for this mix of material, color and light bulb, just the limits of imagination.

BELLE D'I 20

Design by Hind Rabii / 2015

For this collection, HIND RABII drew her inspiration from the characteristic shape of Morocco's traditional Beldi glass for tea and infusions, featuring a central band in relief.

The simple, clean lines of the pendant are contrasted with the material quality of the glass, obtained by means of blow-moulding techniques.

Its central box supporting two light sources seems suspended in the air.

A timeless lamp: stylish and original, it blends perfectly into any environment, whether classic or contemporary, to create a warm, evocative atmosphere.

BELLE D'I 38

Design by Hind Rabii / 2015

For this collection, Hind Rabii drew her inspiration from the characteristic shape of Morocco's traditional Beldi glass for tea and infusions, featuring a central band in relief.

The simple, clean lines of the pendant are contrasted with the material quality of the glass, obtained by means of blow-moulding techniques.

Its central box supporting two light sources seems suspended in the air.

A timeless lamp: stylish and original, it blends perfectly into any environment, whether classic or contemporary, to create a warm, evocative atmosphere.

ANNETTE & LUBIN

Design by Jean François d'Or / 2016

Annette and Lubin are two characters from a tale written by Jean-François Marmontel in 1761, telling the true story of Marie Schmitz and Gilles Dewalt of Spa.

In their lifetime this couple would become Annette and Lubin of Spa, lending their name to the luscious green hill at the top of which they lived.

Celebrated and remembered by this town, Queen of the Belgian Ardennes, placed in this oasis, this region of springs.

Annette and Lubin is a collection of lights inspired by this region and these two characters. Where the sphere and cone meet, superimposed blown glass and locally sourced oak; the freshness of undergrowth and a July morning, with pearl pink on the leaves of a lush green colour palette.

Versatile blends of these two geometric shapes that stem from the intersections of materials and colours of Annette and Lubin.

VOLTE - FACE

Design by Hind Rabii - Maxim Pien / 2017

Lights reach us from above. The sun and the moon, eternal accomplices, rise and set early to illuminate our days and stimulate our nights.

And the lights from below boil down to, in such concentration, volcanoes that exult the incandescence of the earth, from far, far away.

What violence, what unimaginable beauty, all these rays, direct and indirect.

We want to «VOLTE FACE», to play with all these interactions, reflections, direct and indirect rays, rays from above, rays from below, brightness, colours.

EVERYWHERE, VOLTE FACE, EVERYWHERE.
